"I lost my own father at 12 yr. of age and know what it is to be raised on lies and silences my dear daughter you are presently too young to understand a word I write but this history is for you and will contain no single lie may I burn in Hell if I speak false." In True History of the Kelly Gang, the legendary Ned Kelly speaks for himself, scribbling his narrative on errant scraps of paper in semiliterate but magically descriptive prose as he flees from the police. To his pursuers, Kelly is nothing but a monstrous criminal, a thief and a murderer. To his own people, the lowly class of ordinary Australians, the bushranger is a hero, defying the authority of the English to direct their lives. Indentured by his bootlegger mother to a famous horse thief (who was also her lover), Ned saw his first prison cell at 15 and by the age of 26 had become the most wanted man in the wild colony of Victoria, taking over whole towns and defying the law until he was finally captured and hanged. Here is a classic outlaw tale, made alive by the skill of a great novelist.

Initially unaware that both books were short-listed for the Booker in 2001, I read True History of the Kelly Gang shortly after finishing McEwans Atonement. I find it interesting that the role of the author is at such issue in both books. Thankfully, the two authors take markedly different approaches. Carey's novel is apparently a fictional enlargement of something actually written by Ned Kelly, a notorious nineteenth century Australian outlaw. For those whose first encounter with Ned Kelly, like my own, is through this book, it appears that Ned Kelly is an historical figure whose particular story is deeply embedded in the frontier foundation mythology of Australia. For Americans, a parallel would be Jesse James. Like many myths that gain traction, Kelly's story is great; Carey chose wonderful material to work with. Much of this (quasi-epistolary) novel is written in the first person, so Carey takes great pains with the vernacular. I can't vouch for the authenticity but it certainly rings true. And Carey clearly sympathizes with his subject, making the outlaw's youth mistreatment at the hands of the local authorities look like easy justification for what follows. But the real strength of the myth stems from the fact that Kelly was always doomed. And, indeed, he was hung. As it pertains to my initial comparison, we have the Jerilderie Letter which was actually written by Ned Kelly but will certainly have been subjective. Then we have Thomas Curnow, a character in the book who makes off with Kelly's fictional manuscript. That it appears at all (fictionally, of course) indicates that he published it, which suggests he could have edited it. And, of course, we have Peter Carey with the pen. So, at least three layers lie between the events of this novel and the actual events of Kelly's life. There is plenty else at work here but, like Atonement, Carey's novel seems to imply that the search for fact in the historical record is a quixotic endeavor.
